ARTIST STATEMENT

With an endless array of fascinating subjects and my camera on hand I am eager to experience, explore, and document my surroundings. Observing each unique environment. I pay close attention to the many different characteristics and subtleties. Absorbing the ambiance.

Feeling compelled to reflect my love for such moments. I draw upon sketches, memories and photographic references. Taking a moment to reflect upon many whimsical visions. Reacting with a sense of urgency to describe them. It's pure delight. Stories spill over onto the canvas with simplicity. Nothing is better than paint gliding across the canvas. A multitude of patterns and reflections form from the paint squishing, oozing and blending together. Surfaces become filled with thick impasto marks, brilliant colours, and flat shapes that fuse and meld together to create conversations. Transcending into a mystical realism that inspires us to see the world in a new and exciting way.

My work celebrates a connectedness to our physical and spiritual environments. I believe paintings should be alive. Filled with energy and excitement. They should bring a sense of joy and allow you to reflect upon them. I paint to share with you my understandings of the world. I paint to develop a connection to the world. I paint to emulate the calmness of nature. I paint to create a world where you can choose to let your imagination fill in the gaps. I paint to experience life. The world is breathtaking and I just have to capture it. The possibilities are endless!
